

## **Two-Day Seminar on ‘Teacher Leadership’**

Academic Year 2023-2024 kicked off with a motivating seminar on ‘Teacher Leadership’ Challenges and Responses organised on 31st March and 1st April in the AV room of school old building.

Principal Sister Lizy invited Father Thomas ..... as the Chief Speaker for the two-day seminar focussing on the role of teachers as essential leaders in the new millennium.

During the seminar, Father Thomas enlightened the teachers with innovative concepts like Future Shock, unlearn-relearn methodology, reflective teaching, Peter Senge’s Learning Organisation, Reflective Learning, teachers as Self Learners, etc. He provided his views on the technique of Inform-form-perform-transform and also

urged the teachers to focus on meaningful learning experiences that would develop their skills and competencies most needed in the present context. UNESCO's 4 pillars; to know, learning to do, live and work together and to be, must be incorporated, he added for enhanced teaching experiences.

Learning is continuous, people can create results they truly desire. He emphasized on Peter Senge's message for teachers that they should become committed to lifelong learning. Through this seminar, teachers were also made aware of the value of Team Learning, as any organisation cannot grow or think unless its members work together. Lastly Father Thomas focussed on prioritising personal and professional growth of the teachers through knowledge transfer.

In this immensely enriching seminar, Father Thomas shared various resources with the teachers and encouraged them to use creative methods in teaching their students. The seminar ended on a positive note with the vote of thanks given by senior biology teacher, Miss Kumkum Mukherjee. Breakfast, Lunch and beverages were served generously to all on the two consecutive days. The school teaching fraternity extended its gratitude to the Principal for organising such an invigorating seminar.
