

CHILDRENS DAY 2023

On the special occasion of Children's Day, the school echoed with laughter, cheer, and the innocent merriment of our students. Dressed informally, the school premises dazzled with vibrant colours as students geared up for the most awaited event of their life. Origami, balloons and thematic decorations adorned every classroom. The highlight of the day was a spectacular cultural program presented by the teachers for their beloved students. The program began with a prayer dance followed by other dances, a beautiful skit titled 'Think before you click' that raised awareness among the kids on the hazards of social media and musical performances that showcased the diverse talents of our teachers.

A special picnic was arranged for all classes in the playground. Children bought a variety of healthy, home-cooked food from their homes and shared among peers. The field transformed into a joyful space where children could relish their favorite snacks and meals.

As the day came to an end, the echoes of laughter and the smiles on the faces of our students served as a reminder of the joy that childhood brings. It was a day filled with gratitude for their teachers for having done so much for their happiness. Principal, Sister Lizy thanked the teachers for their hard work and expressed her happiness over the colorful gaiety that the program brought.
